A P P E N D I X A

List of Categories of Locational Data in which Map Division would have Primary Interest and Responsibility.

## A. NATURAL FEATURES

1. Terrain.

Spot heights, and general information on elevation of the land. Physiographic regions. Contour maps for cartographic purposes.

2. Drainage.

Courses of rivers. Perennial or intermittent. Lake shorelines. Water sale, fresh or brackish. Existence of marshes and swamps. Sub-surface drainage.

3. Vegetation.

General information on vegetation types. Forest reserve areas.

4. Soils.

General information on soils. No responsibility for information on soils chemistry, soil structure, or cross-sections.

5. Geology.

Surface areal geology maps. Location of mineral resources. General information on depth of water table.

## B. CULTURAL FEATURES

1. Transportation

## a. Roads.

Alinement, width, surface, seasonality, foundation, bridges, tunnels, ferries, distances. No responsibility for information on volume of traffic.

## b. Railroads.

Alinement, guage, trackage, electrification, bridges, tunnels, ferries, terminal points, guage interchange points, sidings, passing loops, ownership, distances, marshalling yards. No responsibility for information on volume of traffic, weight of rails, grades, curves.

## c. Air Routes.

Ownership, air distances, location of terminal airfields, excluding facilities.

Approved For Release 2002/01/14 : CIA-RDP79-01096A000400050040-3

- d. Oil, Gas, and Water Pipelines.  
Alinement, size, pumping and booster stations, surface or underground, ownership.
- e. Electric Power Lines.  
Alinement, capacity, transformer stations.
- f. Inland Waterways.  
Minimum widths and depths, seasonality, location of locks, alinement, ownership.

2. Political Boundaries.

- a. International.  
Treaty basis for and description of boundaries.
- b. Internal
- c. Boundary Changes.
- d. Boundary Problems.
- e. Status of Boundaries.  
Demarcation, delimitation, definition, recognition by U. S.
- f. Sovereignty Status
- g. Territorial Waters

3. Population

- a. Distribution
- b. Ethnography.
  - (1) Race and Nationality
  - (2) Language
  - (3) Religion

4. Agricultural Land Use.

- a. Distribution of Crops and Livestock.  
Include plant and animal diseases and their vectors.
- b. Agricultural Projects.  
Irrigation, drainage, colonization.
- c. Systems of Land Tenure.
